

RFID

TECHNOLOGY AUTOMATED MAT SORTING BY ROUTE

EZ SORTER allows for routes to be loading simultaneously.

EZ SORTER sorts and delivers about 300+ mats each hour.

EZ SORTER reduces production labor costs and increases reporting.

EZ SORTER

Production Design Products **EZ SORTER** Mat system provides the latest technology in route preparation:

- Accepts up to size 4' X 10' rolled mats from PDPI's state-of-the-art mat rollers
- Uses RFID hardware and software to download daily load requirements to build routes
- Includes manual sort option

For information on automated mat sorting:
