

PDPI EZ ROLLER MAT ROLLER

THE MAT ROLLERS FROM PDPI:

*Easy feeding inclined bed
on the EZ Roller.*

Self-starting roll.

*Rolls latex, rubber and
vinyl-backed mats.*

Variable 3-speed mode.

*Two-mode finger lift
(automatic or manual).*

*Sand trap with
removable pan.*

*Unit Counter and
cumulative time
usage meter*

PDPI's EZ Roller Mat Roller is easy to operate –

From lift table, to roller, to storage, the average operator can roll 165 mats per-hour with ease - twice the average hand-rolling rate.

The EZ Roller is ergonomically designed. The mat rolls back to the operator eliminating bending and reaching for the mat from the machine.

Epoxy enamel paint provides a durable finish to the exterior of the roller. The motor is fully enclosed, keeping elements out. Inside features include solid, cold-rolled, stress proof steel shafts and heavy-duty pillow blocks, ensuring easy maintenance.

Delivered completely assembled and ready to operate.
