

# PDPI MOP MACHINES: UP CLOSE!

## THE MOP MACHINE FROM PDPI:

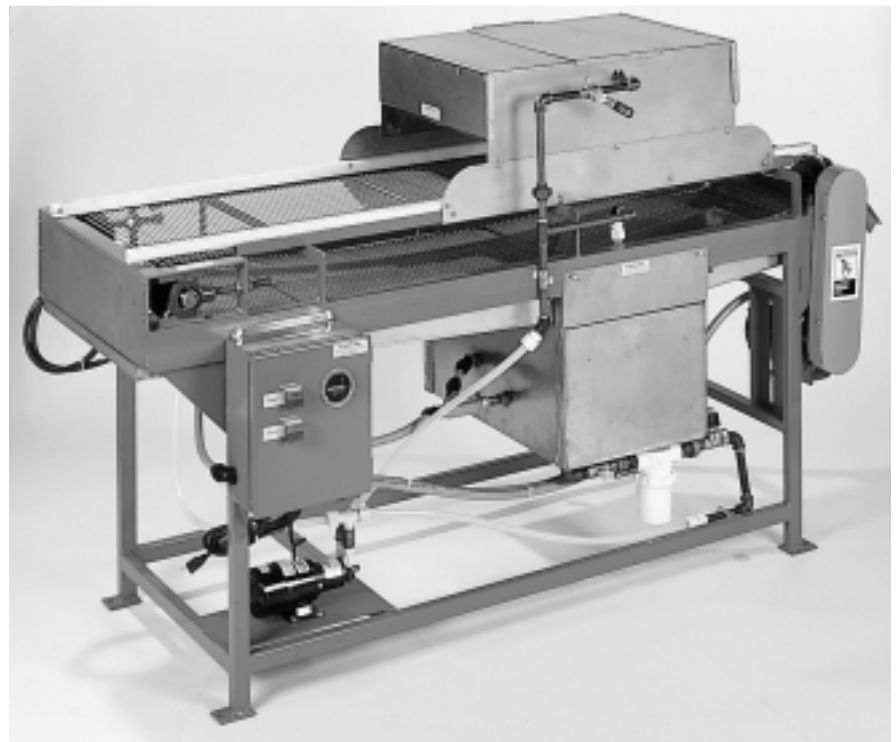

*Stainless steel tanks and sheet metal are standard on both models. They are designed for use with the newer water based treatment oils of the standard petroleum based products.*

### *The Mop Machine: LHF –*

The large capacity LHF model is equipped with the new fog free type linear treatment head for a more adjustable and controlled treatment of the mops. It features a dual filter system and an on board reservoir for the oil. Automatic transfer valves enable the machine to draw oil directly from the drum to maintain the proper level in the reservoir.

### *The Mop Machine: LHD –*

The economical, lower volume LHD model mounts directly on the drum of treatment oil. It is equipped with a unique linear type treatment head which provides a low pressure shower of treatment oil across the entire width of the conveyor. This design eliminates the oil fog generated by nozzle type systems and offers a broad range of treatment adjustment.

# PDPI MOP MACHINES PRODUCT SPECS

## *The Mop Machine LHF –*

**Dimensions:** 51<sup>1</sup>/<sub>4</sub>" high, 28" wide, 72" length

**Conveyor:** 18" wide, 66" length

**Approx. Shipping Weight:** 440 lbs.

**Drive Motor:** <sup>1</sup>/<sub>4</sub> hp

**Conveyor Speed FPM:** 70.6

**Mops Per Minute (24"):** 35

**Pump Motor:** <sup>1</sup>/<sub>2</sub> hp

**Pump Capacity, GPH:** 6.9

**Operating Pressure, PSI:** 20

**Stainless Steel Spray Head:** 1

**Primary Filter:** Yes

**Secondary Filter:** Yes

**Transfer Valves:** Elec.

**Casters (Optional):** 4"

**Outside Vent:** No

**Production Rate:** 35

**24 Mops Per Minute**

**Electric Characteristics:** 115V, 1PH, 60HZ

## *The Mop Machine LHD –*

**Dimensions:** 20" high, 24" wide, 37" length

**Conveyor:** 16" wide, 36" length

**Approx. Shipping Weight:** 154 lbs.

**Drive Motor:** <sup>1</sup>/<sub>15</sub> hp

**Conveyor Speed FPM:** 37

**Mops Per Minute (24"):** 18

**Pump Motor:** 1.3 amp

**Pump Capacity, GPH:** 13

**Operating Pressure, PSI:** 20

**Stainless Steel Spray Head:** 1

**Primary Filter:** Yes

**Secondary Filter:** Yes

**Transfer Valves:** None

**Casters (Optional):** None

**Outside Vent:** No

**Production Rate:** 18

**24 Mops Per Minute**

**Electric Characteristics:** 115V, 1PH, 60HZ
